

PLCE Marching Order comprises equipment required to sustain a soldier over longer periods of time. This equipment is usually packed into a larger capacity bergan (such as the 125 litre PLCE Infantry bergan shown) and should include sleeping equipment, spare boots and spare dry clothing. Note that this equipment must always be combined with **PLCE Combat Order** (see page 27). The layout below is intended to be a basis for ideas – please visit our website for our full range of combat equipment, clothing and footwear.
